Remember Mary Jemison Special Program Planned at Park

Director Ronald F. Foley has announced that on Sept. 26 the Genesee Region of the New York State Office of Parks, Recreation and Historic Preservation and the Glen Iris Inn will honor the "Native American Heritage" of Letchworth Park and the Genesee Valley with the fifth annual Mary Jemison Day.

Activities at Trailside Lodge in the park will begin at 10 a.m. with Doug Bassett leading a nature walk into "The Indian World." A native craft show and sale will also start at 10 a.m. at the lodge and run to 4:30 p.m. featuring the work of the Iroquois craftspeople. Seneca dance demonstrations, cultural demonstrations and talks will also take place at Trailside throughout the day.

Highlights include a day-long demonstration by Seneca artist Carson Waterman and a special presentation on Seneca language and culture by Clan Mother Myrtle Peterson at 3 p.m.

The Pioneer and Indian Museum will feature a professional archaeologist from 10 a.m. to 2 p.m. as well as a flint-napper who will be making projectile points and other tools. Seneca carver Elon Webster and Ramona Charles, director of the Tonawanda Community House,

will be on hand from 2 p.m. to 4 p.m. to demonstrate woodcarving and discuss the Tonawanda Band of Senecas today. The museum will also show a special video tape on Seneca history and culture throughout the day.

The famous Seneca Council House and Nancy Jemison Cabin will be open to the public from 10 a.m. to 5 p.m. with interpreters on duty to talk about the history of the Council Grounds and its buildings. Anthropologist Dr. Russell Judkins of Genesee State University College will guide tours of the Council Grounds all day. Doug Bassett will lead an "Ancient Woods Walk" from the Council Grounds at 12:30 p.m. At 1:30 p.m. and 4:30 p.m. in the Council House, storyteller Marion Miller will relate native stories to the young and old alike.

At 5:15 p.m. ceremonies will conclude followed by a walk led by Doug Bassett to the Gardeau Valley, home of Mary Jemison. Participants should meet at the Gardeau Overlook at 6 p.m. and wear appropriate clothing. After a brief introduction at the overlook some moderate walking will be involved.

Visitors to Mary Jemison Native American Heritage Day are invited to park at Trailside Lodge. Free shuttle bus service from the lodge will be available to events throughout the day, with the exception of the 6 p.m. nature walk. For more information please contact Indian Heritage Day, 1 Letchworth State Park, Castile, 14427 or phone (716) 493-2611.

The "Let's Talk" special service session will be held from noon to 1 p.m. Customers may walk-in or schedule an appointment by calling the business office.

FOSTER PARENT TRAINING COURSE

A training course for prospective foster parents in Livingston County is being scheduled for September and October. The training, offered by the Livingston County Department of Social Services, prepares people to deal with the special needs of foster children. Foster parent trainer, Allene Grossman, reports that there is always a need for foster parents, particularly for homes willing to take teenagers and those willing to accept sibling groups.

Livingston County serves approximately seventy foster children per year. Current foster parents state that foster parenting is both very demanding and very rewarding. How do you handle these foster teenagers? One Livingston County foster parent wrote, "Discipline is love - caring enough to set a standard, and firm enough to see that it is maintained." Even with all the difficulties, sometimes foster families get "hooked" on caring for these children in need of a stable home.

To be eligible to become foster parents, people must be twenty-one years of age, in good health, have basic parenting skills and adequate space in their home. For further information on becoming a foster parent, call the Assessment Worker at 658-2801.

DRY CONTACTS

Contact lenses that are normally comfortable may become dried out and irritating if you are taking over-the-counter cold remedies that contain antihistamines. These common medications reduce the eye's production of tears, drying the eye as a result. Birth control pills, alcohol and dry environments such as airplane cabins can also make wearing contacts more difficult.
